

Clip creates channelcoins as well as allows users to create, share, and interact with user-generated digital assets. All channelcoins as well as user-generated digital assets on Clip are memecoins. These assets are entirely user-generated, and Clip and its affiliates are not responsible for their creation, quality, legality, or any outcomes from engaging with them. You should understand the risks of user-generated digital assets before using Clip.

Memecoins can be highly volatile and may lose all value without warning. Buying, selling, holding, or otherwise engaging with any memecoin carries a material risk of economic loss. Consider your personal and financial circumstances carefully before participating.

Clip is not your broker, agent, or advisor and has no fiduciary duty to you. Nothing on Clip constitutes financial, investment, legal, or tax advice. No communication from Clip should be construed as advice of any kind. Clip does not recommend buying, selling, or holding any memecoin under any circumstances.

Coins launched on Clip as well as channelcoins such as \$NEWS are created solely for entertainment purposes and have no intrinsic value. They do not represent ownership in any company, entity, or asset, nor confer any voting rights, dividends, or promises of profit. Engaging with memecoins involves risks including, but not limited to, market volatility, liquidity risk, and the complete loss of funds.

All memecoins and related content on Clip are provided “as is” without any warranties. Users should conduct independent research before participating. By interacting with any ERC20 token (memecoins) on Clip, you acknowledge and accept these risks and agree to hold harmless the creators and Clip from any claims, damages, losses, liabilities, or expenses arising from your participation.

By continuing to use Clip, you agree to our Terms of Service and Privacy Policy.
